

§ 2801.10

comply with the applicable requirements of the Federal Energy Regulatory Commission under the Federal Power Act of 1935, 16 U.S.C. 791a *et seq.*, and 18 CFR chapter I.

(c) See part 2880 of this chapter for information about authorizations BLM issues under the Mineral Leasing Act for transporting oil and gas resources.

§ 2801.10 How do I appeal a BLM decision issued under the regulations in this part?

(a) You may appeal a BLM decision issued under the regulations in this part in accordance with part 4 of this title.

(b) All BLM decisions under this part remain in effect pending appeal unless the Secretary of the Interior rules otherwise, or as noted in this part. You may petition for a stay of a BLM decision under this part with the Office of Hearings and Appeals, Department of the Interior. Unless otherwise noted in this part, BLM will take no action on your application while your appeal is pending.

Subpart 2802—Lands Available for FLPMA Grants

§ 2802.10 What lands are available for grants?

(a) In its discretion, BLM may grant rights-of-way on any lands under its jurisdiction except when:

(1) A statute, regulation, or public land order specifically excludes rights-of-way;

(2) The lands are specifically segregated or withdrawn from right-of-way uses; or

(3) BLM identifies areas in its land use plans or in the analysis of an application as inappropriate for right-of-way uses.

(b) BLM may require common use of a right-of-way and may require, to the extent practical, location of new rights-of-way within existing or designated right-of-way corridors (see § 2802.11 of this subpart). Safety and other considerations may limit the extent to which you may share a right-of-way. BLM will designate right-of-way corridors through land use plan decisions.

43 CFR Ch. II (10–1–08 Edition)

(c) You should contact the BLM office nearest the lands you seek to use to:

(1) Determine whether or not the land you want to use is available for that use; and

(2) Begin discussions about any application you may need to file.

§ 2802.11 How does BLM designate corridors?

(a) BLM may determine the locations and boundaries of right-of-way corridors during the land-use planning process described in part 1600 of this chapter. During this process BLM coordinates with other Federal agencies, state, local, and tribal governments, and the public to identify resource-related issues, concerns, and needs. The process results in a resource management plan or plan amendment, which addresses to what extent you may use public lands and resources for specific purposes.

(b) When determining which lands may be suitable for right-of-way corridors, the factors BLM considers include, but are not limited to, the following:

(1) Federal, state, and local land use plans, and applicable Federal, state, local, and tribal laws;

(2) Environmental impacts on cultural resources and natural resources, including air, water, soil, fish, wildlife, and vegetation;

(3) Physical effects and constraints on corridor placement due to geology, hydrology, meteorology, soil, or land forms;

(4) Costs of construction, operation, and maintenance and costs of modifying or relocating existing facilities in a proposed right-of-way corridor (i.e., the economic efficiency of placing a right-of-way within a proposed corridor);

(5) Risks to national security;

(6) Potential health and safety hazards imposed on the public by facilities or activities located within the proposed right-of-way corridor;

(7) Social and economic impacts of the right-of-way corridor on public land users, adjacent landowners, and other groups or individuals;
